

Crowns

“Reminder of our leadership in peace and justice”

Materials to make your crown:

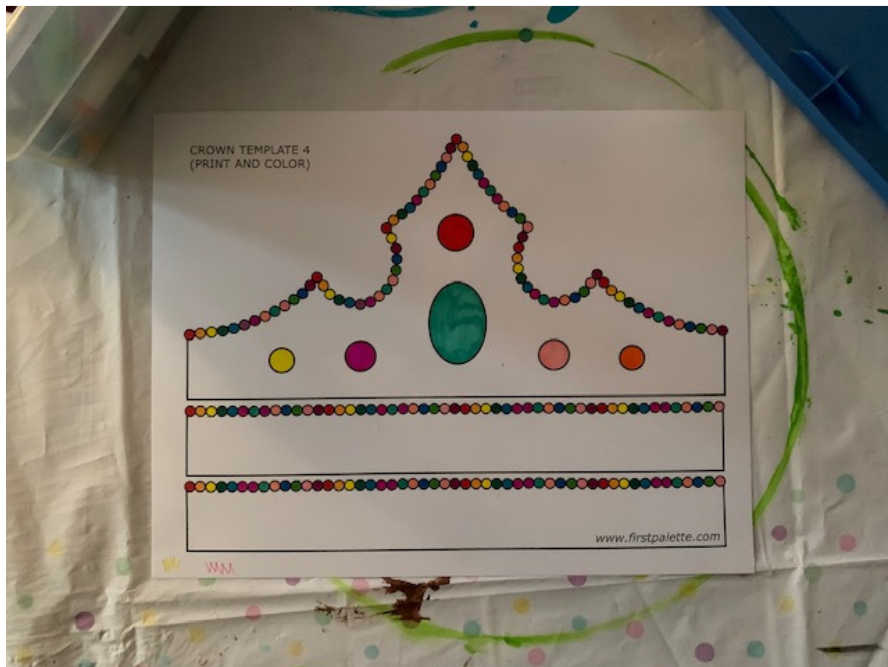

- Card stock paper
- Scissors
- Tacky glue
- Any decorations you have, beads, pom-poms, glitter, ribbons, stickers, crayons, markers or anything else you would like to use to decorate your crown.

Instructions to make your crown:

1. Select the crown you want to use, you can pick one that is already colored or choose a blank one to color yourself. There is one colored crown and two crowns to color for you to choose from.

2. If you are going to color, do that first. You can use paints, crayons or marker and make it any color you choose.

3. Next cut out all the pieces.

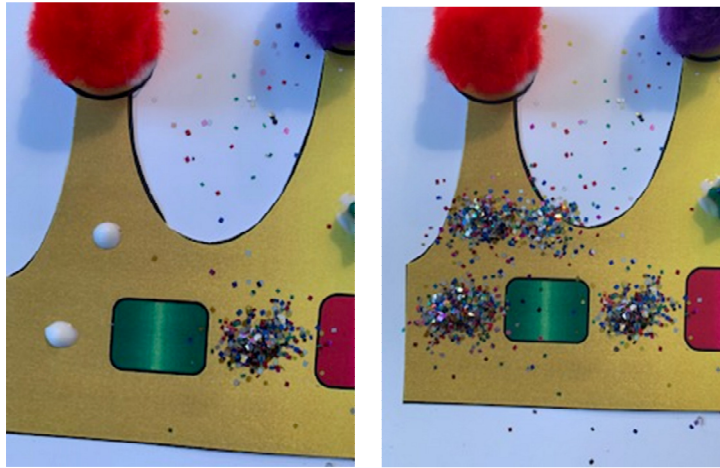

4. Now for the really fun part to make the crown your own. Decorate your crown any way you want, use whatever you have around the house, glitter, beads, ribbon, feathers, pompoms, stickers.....

I use glitter, some star beads, pompoms, and ribbon

Here is how to use the glitter, add a small amount of glue where you want the glitter to stick, then sprinkle the glitter over the glue. Let the glue dry and shake off the extra glitter. You should probably do that outside or you will have glitter all over your house.

I added ribbon to the side pieces

5. Now glue your side pieces on to the crown and let dry.

6. When the side pieces are dry, have someone help you, put on the crown and wrap the sides around the back to make it fit your head. Mark or use a paper clip where you need to glue then take the crown off and glue the sides together. Use a paperclip to hold it until it is dry.

Here are a few finished crowns to give you some ideas.

Paints and goodies

Just colored

Printed and added glitter, pompoms and beads
